

Position Title: Aircraft Maintenance Engineers (AME) and AME Apprentices

Employment Type: Full-time, Permanent

Location: Dryden (YHD) and Sudbury (YSB) locations in Ontario

The Aircraft Maintenance Engineers will be responsible for aircraft maintenance activities in accordance with Transport Canada regulations and Company policy and procedures. AMEs are responsible for ensuring the aircraft operates properly and safely. This job entails assessing and handling repairs, performing regular inspections, and updating aircraft as needed. Salary is based on experience and qualifications.

The Apprentice AME will perform all maintenance activities in conjunction with a licensed AME.

AME Responsibilities:

- Maintain the aircraft in accordance with applicable airworthiness standards and OEM instructions
- Ensure that all components installed on aircrafts are properly certified
- Carry out maintenance, repair and daily inspection of the company aircrafts as detailed in the company Maintenance Policy Manual
- Adhere to the Safety Management System Policy
- Follow company procedures as per the Maintenance Policy Manual using safe work practices

AME Qualifications:

- College diploma in Aircraft Maintenance from a Transport Canada approved educational institution
- Valid AME license (M1, M2)
- Preference will be given to candidates with piston and turboprop experience
- Able to work independently with minimal supervision
- Willingness to work shifts including evenings
- Some travel may be required
